

Task 1

Create a webpage layout with a **fixed header**, **sticky sidebar**, a profile card using relative positioning, and a **static footer**. The profile name should use a **cursive** font.

Sample output:

Task 2

Design a layout with a fixed header, a centered profile box using relative positioning, and a small red circular notification placed at the top-right corner of the profile box using absolute positioning. Add a static footer at the bottom.

Sample output:

Durga Dev

This is a basic profile box with an alert icon.
